

Join our snow removal team!

Residential snow removal operators are essential to ensuring safe and pleasant winter conditions for residents. Working in residential neighborhoods, this operator ensures that driveways, sidewalks and property accesses are kept clear of snow and ice, keeping residents safe and facilitating their mobility during the cold season.

Main responsibilities :

- **Operation:** Operate specialized equipment such as John Deere 4066 and 4052 tractors to clear snow from driveways, sidewalks and residential accesses.
- **Safety:** Follow rigorous safety procedures to avoid accidents and ensure the safety of residents, respecting established protocols.
- **Coordination and communication:** Work in coordination with other members of the snow removal team, manage specific requests from residents and inform those in charge of any problems encountered.
- **Resident service:** Provide a prompt and efficient snow removal service to enhance resident comfort and safety, ensuring minimal disruption and inconvenience.

Skills and requirements:

- **Experience:** Previous experience in heavy equipment operation or snow removal (an asset).
- **License:** Class 5 driver's license MANDATORY.
- **Physical requirements:** Ability to work in difficult weather conditions.

Working conditions:

- Often work in conditions of reduced visibility.
- Variable hours, including nights, weekends and holidays, depending on residential snow removal needs.

This position is crucial to ensuring that residential spaces remain accessible and safe throughout the winter, contributing to the well-being of residents and the peace of mind of the community.
